

Accessing the Canvas Parent App Using a Computer

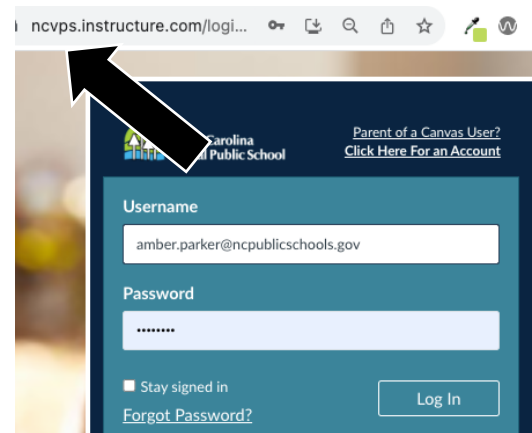

The canvas parent account allows parents, advisors, facilitators, and mentors to track student performance, see grades, and follow along in a course. **IMPORTANT** – Students must log into their NCVPS **course** to obtain a pairing code, and parents must log into their **NCVPS account** in Canvas.

STEP 1: Have the Student(s) Generate Pairing Code(s)

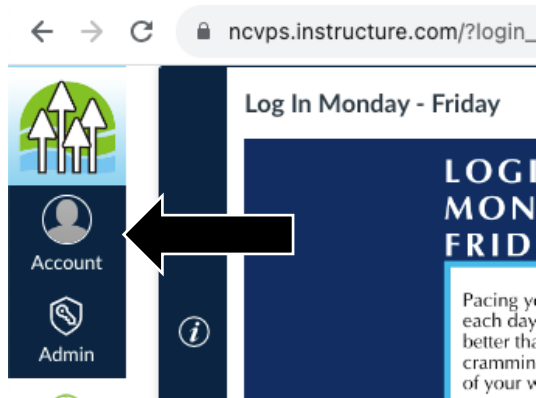

- A. Have the student Log into Canvas using their NCEdCloud account. (if your school does not use NCEdCloud, go to step B)

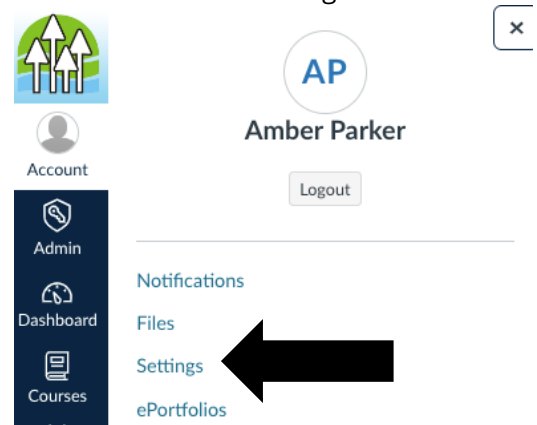

- B. Have Student Log into Canvas. Make sure ncvps appears in the URL

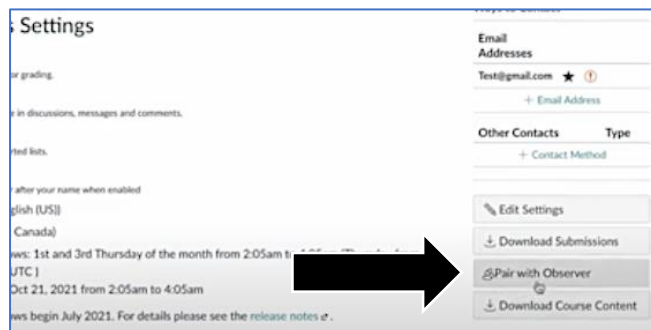

- C. Have Student Click 'Account' icon

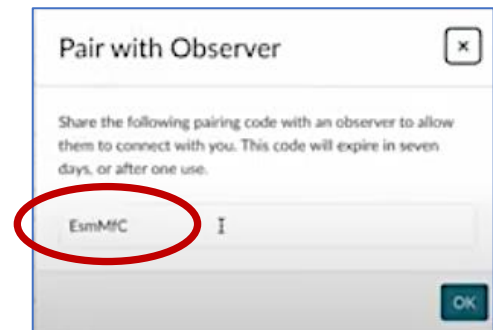

- D. Have student click 'Settings'

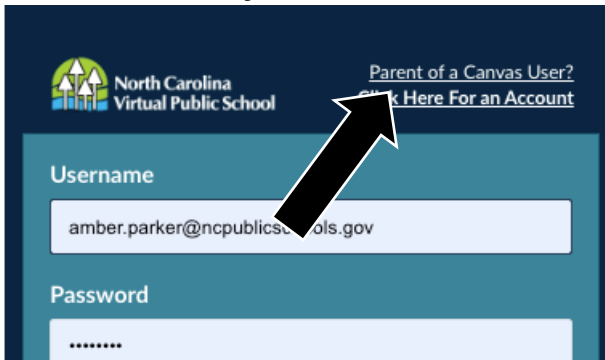

- E. Have Student Click 'Pair with Observer'

- F. Results: **Make a note of the code**

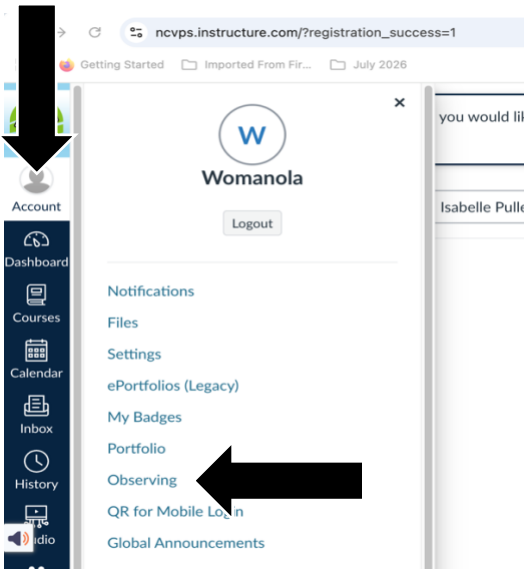

STEP 2: Create your Canvas Observer Account:

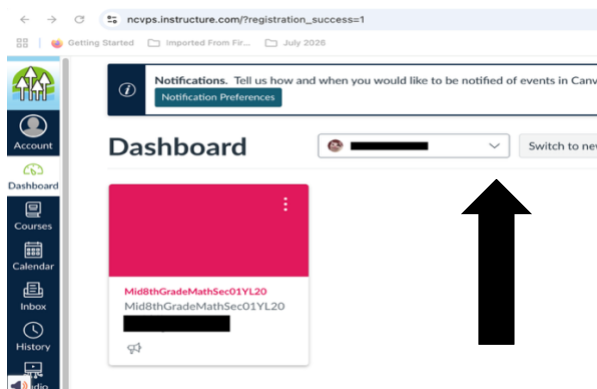

Go to <https://ncvps.instructure.com/login/canvas> and select **Click Here for an Account**.

Fill in your information, **enter student pairing code** from STEP 1, agree to the Acceptable Use Policy, and click **Start Participating**. You will be taken to the student's dashboard.

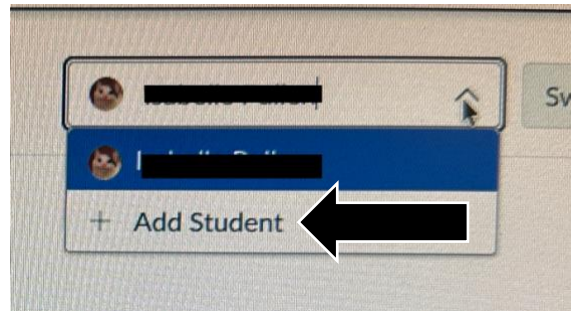

To add additional students: From your Account, click Observing

You will see a dropdown list of students you are currently observing.

To add additional students, click the dropdown and '+ Add Student.'

Important: Removing Students.

Observers can remove students they no longer need to monitor. **However, always keep at least one student connected to your Observer account.**

If you remove your **last remaining student**, Canvas will remove your Observer role. You will no longer be able to add students to that account on your own. The NCVPS Help Desk will then need to delete the account so that you can create a new Observer account and start the pairing process again.

Accessing the NCVPS Canvas Parent App Using a Phone or Tablet

The canvas parent app allows parents, advisors, facilitators, and mentors to track student performance, see grades, and follow along in a course. **IMPORTANT** – Students must log into their NCVPS **course** to obtain a pairing code, and parents must log into the **NCVPS account** in the Canvas Parent app.

STEP 1: Download the Canvas Parent App

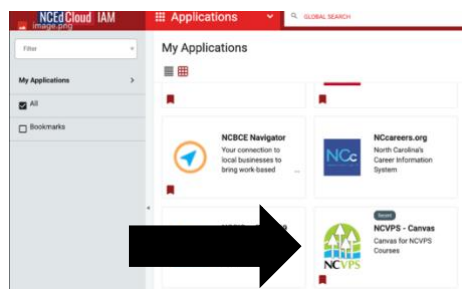

Canvas Parent
Instructure Inc.
