Individualized LEARNING FOR ALL STUDENTS

"I have learned that students must be open minded and willing to work in any learning environment. it has also increased my time management skills and my ability to work on my own. I have a committed and caring teacher that dedicates time to answer my questions or concerns in a timely manner. I'm very glad I had the opportunity to be an NCVPS student."

~ Joseph P., Principles of Business Student

"As a student at a private school, I really hadn't used any type of virtual learning. My NCVPS SAT Prep class taught me not only what I need to know for the test, but it also introduced me to all sorts of new tech savvy tips and tricks that I now use at my face-to-face school. Though it was a lot of work for the summer class (they aren't lying, it does really take 3-5 hours a day!), I look back and see how much we covered and how much I learned. This class certainly paid off for me as I boosted my overall PSAT percentiles from 84% to 97%. Thanks, NCVPS!"

~ Chloe, P., SAT Prep Student
